

## Green Bay Fire Department Press Release

### For Immediate Release

**Date:** 11/15/2010

**Contact:** Ed Jarosz

Battalion Chief

Desk (920) 448-3274 Cell (920) 621-5041

### Shawano Ave Apt, CO

At about 10 minutes after 5, this AM, the GBFD was dispatched to 1809 Shawano obtained high levels of Shawano Ave to a report of a CO detector sounding and occupants feeling ill. On arrival crews entered and immediately encountered a strong smell of natural gas. Crews donned PPE and entered the apartment. Crews obtained a very high level of CO in the apartment of the original call. Apartments adjacent to the original apartment had lower levels of CO. All occupant of the 10 unit apartment building were evacuated. A city bus was brought on scene to shelter the displaced occupants. WPS was called in to address the gas leak. Occupants were permitted to re-enter their apartments as the environment was cleared and gas appliances were re-lit. The 4 occupants from the original apartment were transported to St Vincent's. No fire department injuries.
